### About Chadar trek

Chadar trek or the Zaskar Gorge Trek, the famously traversed as a winter trail by adventure travelers is famous for giving its explorers an inexplicable experience of walking on a frozen Zaskar. This trek covers a staggering 55 km one-way, with an average of 12-14 km per day. The winter snowfall closes most mountain passes and the 'Chadar,' meaning blanket refers to the frozen Zaskar river which becomes the only way for the residents near Zaskar to connect with the rest of the world.
